Requests to the articles presented for the publication

All received works will be reviewed. Articles with high science value will be published in a current issue of peer-reviewed journal “Bashkir State Medical University gazette”. Due to this fact, the articles presented to the organizing committee have to be documented in accordance with the requests of journal editorial board. The article is presented in an electronic form MS Word (*.doc). Recommend to keep up with demand:

1. Original articles should have a form of traditional approach for world science periodicals and have a followed structure: timeliness, purpose of work, information and methods, results and discussing, end with the conclusion.

2. Title page includes: universal decimal classification of the article, name and surname of the author (authors), title of the article. Name of organization presented the article for publication in Russian and English languages.

3. In English language: title of the article, name and surname of the authors, name of organization, review and content words.

4. Text of the article, printed in Times New Roman, 12 text size, with 1.5 space, margin 2.0 cm on all sides, without syllabification. Recommended article capacity is up to 5 pages A4 sizes included tables, images, literature and annotation. All pages have to be marked the numbers.

5. Text of article, all quotation should be accurate checked by author. Referenced literature is provided at the end of the article on a separate page. List of literature is in an alphabet arrangement. In the text the links are indicated in square brackets (in case the link is for several sources have to be separated by a comma, with no spaces) according with the number in the list of literature.

6. Should be used the standard abbreviation. The abbreviation should not be used in the title of the article. The abbreviation need to be expanded when indicated the first time in the text. Standard units of measurement and symbols don’t need to be expanded.

7. The tables should have the title and numerical order, indicated at the top-right corner. Recommended to provide the clearly arranged, compact tables. All numbers should be accurate checked and be in congruence with the numbers in the article.

8. Due to using the results of statistical data analysis the indispensable prerequisite is to indicate used software package and its version, names of statistical methods, providing descriptive statistical methods and exact levels of significance upon examination of statistical hypothesis. For the general results recommended to count the confidential intervals.

9. Units of measurement of physical quantities should be provided in the international metric units.

10. Mathematical formulas, images and schemas should be provided in separate files in bmp, jpg, tiff formats with indicating of image/scheme title, its
numerical order with the definition no less than 300 dpi. In the article have to report the place of location of formula/image/scheme.

The article and annexes (images, etc.) are provided to the conference organizing committee by email: bsmu-int@mail.ru
